## ALTERNATIVE TREATMENTS

At Ark, we believe in a holistic approach to healing. We offer a variety of alternative treatments designed to enhance total body wellness for our patients.

### LIGHT THERAPY

Light therapy is a safe and effective way to treat a variety of conditions including pain, wrinkles and acne by simply placing the affected area under an LED light panel.

### HYPERBARIC

Hyperbaric oxygen therapy is a non-invasive treatment that involves breathing pure oxygen in a pressurized environment.

### SGB

Stellate Ganglion Block is a quick procedure that has shown promising results for treatment of PTSD and its symptoms.

### SUPPLEMENTS

Dr Romig has developed custom supplement blends to specifically address some of his patients' most common needs.

## KETAMINE INFUSIONS

After years of research and collaboration with experts in the fields of neuroscience, pharmacology, psychiatry and anesthesiology, we have created a cutting-edge treatment that is incredibly effective at treating both mental health and physical pain.

All of our ketamine infusions include the Ark Blueprint Formula™. This unique, proprietary formulation was developed to produce the highest level ketamine results combined with natural supplements and co-factors to support total body wellness. Each infusion includes 20-minutes of red light therapy as well as advanced relaxation protocols designed to holistically produce better, more permanent results for our patients.

## THE ARK DIFFERENCE

At Ark, we take a unique, holistic approach to ketamine infusion therapy by focusing on total body wellness and advanced protocols, not just the infusions themselves.

In addition to our cutting-edge ketamine protocols that have been honed over the last 6 years, we also offer a variety of services such as nutrition and dietary recommendations, exercise, natural supplements, hyperbaric and aesthetic treatments. By integrating total body wellness we are able to help our patients achieve long-term, positive results.

We work in conjunction with your mental health or pain care provider to ensure your care is best for you.

Experience the Ark difference.
